## Customer Reviews

This book is excellent! After you finish a grammar or reading book, this is great! You're reading real Latin, (although the first three are adapted), along with vocabulary. There is however, something more. Comprehension questions. I feel that this is important, as sometimes, in any language, we don't understand what we've translated, and this book gives an introduction to what is going on in the passage, for those who don't have a great knowledge of culture or mythology. Great book, definitely recommended!!
