Customer Reviews

Everything runs together. And since I've never read the Hardcopy, I don't know if it's the Source or the Kindle Version. I can only read it for a little bit before I burn out. Some of the material is familiar ... no duh! Some of it is new. Some is neat. Some is right over my head. But I WILL finish it. Eventually!!!

This is fantastic writing and an interesting look into the mind of an early American leader. I would recommend this book to all who would like a glimpse into to early days of this country.

interesting read and highly entertaining
