## Customer Reviews

Reading this book is kind of like shopping at Costco. Just like you didn't realize you needed that 50 pack of glitter glue until you passed it on the endcap, you never knew you really wanted to say "no s\*\*\*, Sherlock" in emoji until this book showed you how.

Well, if genuine Well if genuine LOL (which is to say, I actually did, literally, laugh out loud, on numerous occasions) this one is a real winner! I had no idea there were so many creative ways to merge emoji. I feel I am edging into a whole new world of communication!

I picked this up to flip through waiting in line, and I was surprised to find myself laughing hard enough to disturb both the people behind me and the people in front of me. It would have been even

more clever as a puzzle, maybe Adams Media could put that out next! This would make a good stocking stuffer for a texting-obsessed teen.

I was struggling through everyday life. It was so hard to find work and even harder to keep it! I could hardly function in society anymore - I could barely buy groceries. I couldn't understand anyone! Then I found this guide and suddenly I could communicate with the world again - I could finally understand Emoji. I am a biochemist now (I didn't even finish high school!) and I can't swing a dead cat around without knocking over a pile of job offers that arrive in the mail every day. More importantly, I have a lot of dead cats around because I'm so rich, I don't need to feed them, I just go buy new ones when they starve. This book changed my life forever.

Should warn that book is for older ones, there are some dirty things in here that had I known I wouldn't have bought.
