## Customer Reviews

This book is awesome! Loving it. It Brings on More and More Understanding for me. I have become more knowledgeable and comfortable with myself and my skills with recognizing the difference of why/how our heart function.

For me and in my opinion ONLY ... This book is waste of time to me for preparing to the boards , don't have the time to surf heredidn't get any benefit from it ,,,

Very concrete and at the same time well structured review in this complex field. Very useful for who need to take the boards AAA
