Waking Up From The American Dream

Synopsis

It's a time of transition for the American Right. The old ideas are failing. The conservative movement is disintegrating. And the European Americans who defined and created the United States are rising in defense of their own identity and interests. Gregory Hood is one of the most eloquent and insightful of the writers defining and promoting this transition. *Waking Up from the American Dream*, his first book, collects some of his most important work, including the legendary "A White Nationalist Memo to White Male Republicans," and a new essay, "Trump: The Last American," on the meaning of Donald Trump's nationalist-populist insurgency. The target of Hood's withering critique is "Americanism" itself, the classical liberal ideology that is dissolving America's white ethnic and cultural core. Hood explains his intellectual path from conservatism to White Nationalism and why you should follow. For those seeking to understand the emerging White Right, Gregory Hood is one voice you can't afford to ignore.

CONTENTS
Foreword by Kevin MacDonald
Author's Preface
Introduction
1. An American Son
White Nationalism
2. Waking Up from the American Dream
3. For Others & Their Prosperity
4. Dinesh D'Souza's America

9. How to Destroy the Republican Party
Religion & Guns
10. Why Christianity Can't Save Us
11. No Separate Peace
12. Why Liberals Hate Guns
13. Beltway Rambos
Afterword
14. Trump: The Last American

Praise for *Waking Up from the American Dream*

"In our movement, Gregory Hood is unquestionably the best writer of his generation. Indeed, he could be the best writer in the entire movement."

"Jared Taylor, author of *White Identity*

"Gregory Hood is a brilliant stylist with a great sense of humor as well as a firm grasp of the issues facing white America. I found these essays a pleasure to read, and I was impressed again and again by the depth of his insight into complex issues."

"Kevin MacDonald, author of *The Culture of Critique*

"Political theater in America is usually insufferably boring and smarmy, if occasionally comical and sometimes absurd. But when Gregory Hood weighs in, I pay attention. He has an insider's grasp of the political scene and a talent for teasing the farce out of the most dismal current affairs. But he's no mere heckler. He's got a dream for America and the West, too, and he employs humor and insight to reveal what is wrong and what could very well be the New Right."

"Jack Donovan, author of *Becoming a Barbarian*

"Gregory Hood is quite simply the best political columnist to have emerged on the authentic Right since the death of Sam Francis. He is free of illusions concerning not only the regime under which we live but also the confidence tricksters of the "conservative movement" who makes such a comfortable living shadow-boxing with it. For countless European-descended

Americans gradually coming to realize they have been lied to since birth, but unsure what to do next, Hood will be an invaluable guide.âF. Roger Devlin, author of Sexual Utopia in Powerâ

Reading Gregory Hoodâs *Waking Up from the American Dream* has reawakened the pain of an old wound. For I am old enough to remember the old America. The America that sent a man to the Moon. The America of endless possibilities. And, yes, the America that was 90% white. And that America is gone. The new America is based on anti-white envy and sexual degeneracy pushed on our smallest children. The flag may still be the same, but the old America, the Dream, is dead. Gregory Hood has written a powerful and poignant book about what we have lost. I highly recommend this book.âRamzpaul âProlific. Punchy. Powerful. Gregory Hood is one of the most insightful and entertaining writers in the Alt Right.âRichard Spencer, NPI

Customer Reviews

As a foreigner (And certainly not a White person. Half-Chinese and Half-Filipino), reading through this book helped me in understanding the importance of the people who actually made a society into

what it is, while also understanding another dimension as to America's decline. The notion that the starting premise of America was flawed from the get-go, as it was based on a mixture of lies and wishful thinking has ultimately proven correct, as the current immigration disaster changed the country into something far different from what it was intended to be. For the nation is not the constitution or some bit of wishful thinking. It is the people, whose culture and traditions express the character of those people. Something that can be lost through licentious hedonism, a breakdown in social mores and tradition, and immigration of hostile foreigners, who will attempt to replace the native culture with their own. The importance this holds for foreigners is the fact that this kind of dispossession may very well be coming to our own doorsteps in the coming years. It already has in a number of places like Africa and South America. It certainly is happening now in Europe. And Asia has been wary of the globalist's demonic hand for decades. And only by standing in the truth can we expect to combat this soulless, destructive leviathan. By laying out some of the fundamental flaws of the American founding, while proposing a solution based on something true, natural, and good, others can learn from the rising White Resistance important lessons that can be used to reject the globalist's vile agenda and secure an existence for our peoples and a future for our children.
