Public And Private Families: An Introduction

Synopsis

As the title suggests, *Public and Private Families: An Introduction*, seventh edition, discusses the family in two senses: the private family, in which we live most of our personal lives, and the public family, in which we, as adults, deal with broader societal issues such as the care of the frail elderly, the increase in divorce, and childbearing outside of marriage. The book examines intimate personal concerns, such as whether to marry, as well as societal concerns, such as governmental policies that affect families. Distinctive chapters examine contemporary issues such as income assistance to poor families, the effects of out-of-home childcare, and the costs of Social Security and Medicare programs. A companion reader to this textbook, *Public and Private Families: A Reader*, seventh edition, with 14 same-named chapters, has 34 readings from both the popular press and academic journals. Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect[®] is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook[®] - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:

Customer Reviews

This textbook was reader friendly. It is formatted in a way that was easy to read and also to look up main points. It was one that I needed for an online course and I got good use out of it. There are also questions at the end of each chapter and main ideas in bold to make studying easier. It is not a text that I dreaded using and it made the material easy to understand. I did rent this book instead of purchase it because of the cost and would recommend renting if it is available.

book rentals is awesome, but this text is awful. Cherlin moves from topic to topic without clear focus and throws terms and ideas at the reader like the village drunk tossing bottles at a wall.

Good

I took a sociology class on the family and this was definitely a very interesting topic. The book is easy is to read and understand.

Really helped me for my online class. The chapters helped aided me when it came to studying for a test. It was worth renting!

Would not recommend this item everything is online. A waste of money. It was a nightmare picking up this order.I like Fed=X

I received the book on time and the item was as described when purchasing. Although i rented instead of purchasing it.

My son bought Public and Private Families: An Introduction for a college course. It served it's purpose for his class.
